

## Project Cost Estimator

### Who we are

[J. Uno & Associates, Inc.](#) is a Hawaii-based cost engineering and estimating firm. Our team operates as a cohesive unit to provide consistent, high quality cost estimating consulting services to provide peace of mind and confidence to our clients. We believe in a collaborative approach with constant communication and are committed to quality. We are looking for a Project Cost Estimator to join our team.

### What you will do

As a Project Cost Estimator, you will deliver cost estimates that provide insight into costs and project value to achieve client goals. Under general supervision of the Principal Cost Estimator and Senior Cost Estimators, you will work on challenging projects that pull on your knowledge from previous professional experience, training provided by our firm, and independent judgement.

### Who are you?

Successful team members are curious and value quality over quantity. They are creative problem solvers, and they seek to build value internally and for our clients. This means to join our ranks:

- You are an excellent communicator who's not afraid to ask questions.
- You zoom in on the smallest details, while keeping the big picture in focus.
- You thrive in an environment where you manage numerous projects and priorities.
- You are the one always asking, "How might we make this better?" and "How can I improve this process for my team?"
- And, of course, you are conscientious, professional, and looking for an opportunity for career growth.

### Your qualifications

We believe excellent Cost Estimators can come from anywhere in the Architectural, Engineering, and Construction community. These are things we are looking to find on your resume:

- B.S. degree or equivalent work experience in Engineering (any discipline), Architecture or Construction management

- A minimum of 2 years of experience in Cost Estimating, or the construction and design industry
- Experience in architectural, civil, electrical, mechanical, or structural systems

## Your technical skills

Here are some of the technical qualifications you will need to be a successful Project Cost Estimator and produce clear, concise, and timely cost estimates:

- Review and understand Plans & Specifications using both hard and electronic blueprints.
- Proficient in Microsoft Excel and Word, and a PC operating system.
- Proficient in Algebra level math or higher.
- It is preferred, if you have experience performing quantity takeoffs and scheduling.
- It is preferred, but not required, if you have working experience using MCACES MII.

## Our compensation and benefits

- Salary will be commensurate with experience, abilities, and education
- Health Insurance
- Paid Holidays
- Paid Sick Leave
- After your first year, Paid Vacation and 401k

## We are an equal opportunity employer

J. Uno & Associates is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees. All employment is decided based on qualifications, merit, and business need.
